

GOVERNOR LUCKY ORIMISAN AIYEDATIWA

OUR EASE

Public manifesto and development agenda

A practical commitment to enterprise, infrastructure, opportunity and responsive government across every community in Ondo State.

Seven priorities for a stronger Ondo State

The agenda brings public services and economic opportunity into one measurable programme.

01

Enterprise and investment

Simplify processes, strengthen institutions and make Ondo State a dependable place to start, grow and invest.

02

Roads and infrastructure

Improve the links that connect farms, markets, schools, health facilities and communities.

03

Agriculture and industry

Grow value chains around cocoa, food production, processing, exports and job-creating industry.

04

Health and education

Support stronger frontline services, modern learning environments, skills and better outcomes for families.

05

Coastal and energy economy

Unlock responsible opportunities in the coastal corridor, energy and supporting infrastructure.

06

Tourism and culture

Promote Ondo State's natural landmarks, creative economy and cultural heritage as engines of local prosperity.

Accountable government that residents can see

The seventh priority is a government that listens, publishes progress and follows decisions through. The Executive Desk public portal is designed to connect that promise with everyday citizen experience.

Follow public projects

View delivery status, location and the latest public-facing update for major projects.

Send evidence with feedback

Attach photos or videos to a complaint, suggestion or emergency report so the responsible team receives clearer context.

Read public information

Open approved notices, reports, meeting information and other documents in one place.

See response status

Track whether citizen feedback has been received, reviewed or responded to.

A SHARED DELIVERY COMMITMENT

Progress should be visible, useful and open to feedback.

Residents, communities, MDAs and the Governor's Office each have a role in turning priorities into measurable results across Ondo State.
